

Principles for Responsible Investment Summary Assessment

At TD Asset Management Inc. (TDAM), we believe sustainability is a long-term investment. Our sustainable investing approach sets out a framework for ESG integration across asset classes for applicable types of investment and investment strategies, with teams having varied approaches given their mandate(s). Our ESG Engagement Committee, comprised of diverse and seasoned professionals, oversees the firm's overall ESG strategy and integration efforts.

The UN Principles for Responsible Investment (PRI) assessment¹ is an annual scorecard report provided to signatories of the PRI, based on the reporting of their responsible investing activity throughout the year. The reporting is compulsory for all signatories, helping to ensure (i) accountability; (ii) standardized transparency among signatories; and (iii) continuous improvement, as signatories are able to gauge their performance relative to their peers and industry.
