Basis of Presentation

The unaudited information contained in this abridged package is designed to improve the readers' understanding of the financial performance of TD Bank Group ("TD" or the "Bank") reflecting the impact of the adoption of IFRS 17, *Insurance Contracts* (IFRS 17), which replaces the guidance in IFRS 4, *Insurance Contracts* (IFRS 4). This information should be used in conjunction with the accompanying Press Release dated February 1, 2024. Pages of this package that were not impacted by the above change have not been included.

Adoption of IFRS 17

Effective November 1, 2023, the Bank adopted IFRS 17 which replaces the guidance in IFRS 4. The Bank applied the standard retrospectively with a restatement of the comparative periods, recognizing the cumulative effect of adopting the standard as an adjustment to the opening retained earnings balance as of November 1, 2022. Accordingly fiscal 2023 numbers are based on IFRS 17. The Bank did not restate periods prior to fiscal 2023 which continue to be based on IFRS 4.

How the Bank Reports

The Bank prepares its Consolidated Financial Statements in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board, the current generally accepted accounting principles (GAAP), and refers to results prepared in accordance with IFRS as "reported" results. Certain comparative amounts have been revised to conform with the presentation adopted in the current period.

The Bank also presents certain financial measures, including non-GAAP financial measures that are historical, non-GAAP ratios, supplementary financial measures and capital management measures, to assess its results. Non-GAAP financial measures, such as "adjusted" results, are utilized to assess the Bank's businesses and to measure the Bank's overall performance. To arrive at adjusted results, the Bank adjusts reported results for "items of note". Items of note are items which management does not believe are indicative of underlying business performance and are disclosed on pages 4 and 5 of this package. Non-GAAP ratios include a non-GAAP financial measure as one or more of its components. Examples of non-GAAP ratios include adjusted basic and diluted earnings per share, adjusted did independent views the financial measures and adjusted effective income tax rate. The Bank believes that non-GAAP financial measures and non-GAAP ratios provide a reader with a better understanding of how management views the Bank's performance. Non-GAAP financial measures and non-GAAP ratios used in this document are not defined terms under IFRS and, therefore, may not be comparable to similar terms used by other issuers. Supplementary financial measures depict the Bank's financial performance and position, and capital management measures depict the Bank's capital position, and both are explained in this document where they first appear.
